1. Aims of the Policy

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled pupils
- Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

Our school values, Consideration, Aspiration, Resilience and Equality are at the centre of all that we do, this is particularly true for disabled stakeholders (including staff, pupils and parents). As a school we recognise our duty under the DDA/SENDA legislation:

- Not to discriminate against disabled pupils in their admissions, exclusions, and provision of education and associated services.
- Not to treat disabled pupils less favourably
- To make reasonable adjustments to avoid putting pupils with a disability at a substantial disadvantage
- To publish an Accessibility Plan
- Governors and staff will have regard to the DRC Code of Practice (2002)

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan. As such we have full regard for Concilium Academies Trust's policies and procedures in relation to the rights of disabled stakeholders. We also work in close partnership with Local Authority officers and staff who work on behalf of disabled people.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, the complaints procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan, including teachers, pupils, parents and Governors. This has been carried out both remotely and in person.

2. Legislation and Guidance

This document meets the requirements of schedule 10 of the Equality Act 2010 and the Department for Education (DfE) guidance for schools on the Equality Act 2010.

The Equality Act 2010 defines an individual as disabled if they have a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on their ability to undertake normal day to day activities.

Under the Special Educational Needs and Disability (SEND) Code of Practice, 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

This policy complies with our funding agreement and articles of association.
